ANNUAL AIR EMISSIONS INVENTORY QUESTIONNAIRE

Cotton Gin Equipment

The 2007 Cotton Gin Annual Emissions Inventory Questionnaire includes 4 forms that are required to be completed and submitted to the Air Quality Division. Instructions for each form are included below. Upon completion, submit all forms along with the signature by the Responsible Official of the facility within 90 days of receipt of a letter from the Department to the address below.

FORM 1: Facility General Information

Complete all fields as requested.

FORM 2: Equipment & Stack Data

Equipment List: List all cotton gin equipment and the hours operated at the facility.
Stack Information: List details of each stack on the equipment. Indicate, if not available.

Input all calculation results in the appropriate spaces provided in the form.

FORM 3A: Emissions Calculations For Cotton Gin

Input the quantity and the total processed cotton (bales/year) in the year 2007. To calculate the emissions for the different processes take the total bales multiply by the pollutant emission factor and divide by 2000.

FORM 3B: Emissions Calculations For Boilers

Based on the type of fuel used (Natural Gas, Butane, Diesel and Propane), choose the appropriate table to input the boiler heat input rate per hour (MM Btu/hr) and the total hours operated during the calendar year 2007. To calculate the boiler emissions take the heat input rate multiply by the hours operated, multiply by pollutant emission factor, and divide by 2000.

FORM 4: Summary & Certification

A summarization of all the emissions by each pollutant will be listed within this form. All reports submitted to the Department should be certified true and accurate by the Responsible Official of the facility. This person is the owner or operator of the facility. **If there is a change of the Responsible Official of the facility, please notify the Department with an additional letter stating the change.**

If you have any question or have difficulty completing this form, please contact Darlene Celaya at (602) 771-7662.
