ANNUAL AIR EMISSIONS INVENTORY QUESTIONNAIRE
Crushing & Screening Plant

The 2011 Crushing & Screening Plant Annual Emissions Inventory Questionnaire includes 4 forms that are required to be completed and submitted to the Air Quality Division. Instructions for all forms are included below. Upon completion, submit the forms along with the signature by the Responsible Official of the facility within 90 days of receipt of a letter from the Department to the address below.

FORM 1: Facility General Information

Complete all information as requested.

FORM 2: Equipment, Stack & Location Data

Equipment Information: List all the on-site equipment along with the Authorization To Operate (ATO) number where available. Indicate, if not available.

Stack Information: Provide details of each stack.

Operating Location: If the portable equipment was moved from one location to another, list the dates, the cities & counties, the latitude & longitude or address/driving directions for the portable equipment that was operated during the year 2011.

FORM 3A & 3B: Emissions Data - Point & Fugitive Emissions Input all calculations results in the appropriate spaces provided in the form.

Enter the number of units, amount processed (tons/hr) and the total hours operated for each of the different processes.

To calculate the emission you will take the amount processed multiply by total hours operated multiply by emission factor and divide by 2000.

FORM 3C: Emissions Data - Generator Emissions

Based on the type of the fuel used, (Gasoline, Diesel, or Natural Gas/Liquid Propane), choose the appropriate table to input the generator horsepower and hours of operation during the calendar year 2011. To calculate, take the horsepower multiply by hours operated, multiply by emission factor, and divide by 2000. If you used commercial electricity to power your equipment covered under your permit, please check the box at the bottom of the page 7.

FORM 4: Summary & Certification

A summarization of all the emissions by each pollutant will be listed within this form. All reports submitted to the Department should be certified true and accurate by the Responsible Official of the facility. This person is the owner or operator of the facility. **If there is a change of the Responsible Official of the facility, please notify the Department with an additional letter stating the change.**

If you have any question or have difficulty completing this form, please contact Darlene Celaya at (602) 771-7662.

Remember to make photocopies of the completed questionnaire prior to mailing for your records/reference. Please mail the emission inventory questionnaire form to the following address:
